ANTHRACITE MINERS ACT

RESOLVE TO CONTINUE THE UNION CARD INSPECTION SYSTEM.

Also Empower Officers to Declare s Strike if Contracts Are Violated by Employers.

HAZLETON, Pa., Aug. 29.-With the adoption of the report of the committee on resolutions the United Mine Workers this afternoon practically finished their work. The convention will adjourn at noon tomorrow. The resolutions recommend writday at Rogers rock dock. No lives were | ten instead of verbal agreements with all the coal companies, strict compliance with the present contract, continuation of the car inspection system as now conducted, and instructs President Mitchell and the district presidents to confer with the coal companies regarding card inspection and violation of agreements and to arrange for a joint conference. These officers are vested with power to declare a strike if contracts

now in force are not lived up to.

The resolutions call attention to the ad vantage resulting to both miners and operators by a written contract covering the wage rate for a stated period and specifying the conditions of labor. The committee allege that instead of agreeing to the request for a written agreement the various companies posted notices of an indefinite character. In many instances the resolutions state that written notices posted and verbal agreements made by superintendents with committees have been violated under various pretexts. Employes who derived the benefit of the 10 per cent. increase have, it is claimed, been discharged and new men placed in their positions at the old wages. The committee states in the resolutions that if the miners are required to live up to their agreement then the coal companies should do likewise, instead of seeking to destroy the Mine Workers' organization by intimidating the men. Hereafter the miners will insist upon written agreements, which shall porter as she stepped toward her train be signed in joint convention before the | she shook hands cordially and opened her present contract expires, and they will also insist upon the present working card being continued until the question of a general working badge for the bituminous and anthracite regions is decided upon at the next national convention. The following Joint Smasher.

recommendations are made: "That the unions continue to collect the working card of the union and use all honorable means to induce those who are not yet members to become such; that a committee of the national and district presidents be instructed to proceed to the highest authorities of the coal companies and to endeavor to overcome their objections to the inspection of working cards, to call their attention to the many violations of contracts by their agents in the coal fields and insist on the contracts being lived up to, and to make such preparations for a joint convention of operators and miners, to be held before the first of April next, as they possibly can. This committee shall have discretionary powers in the enforcement of the contracts now existing even to the extent of ordering a suspension of work for the purpose of enforcing it." The question of the miners connecting themselves with Central Labor Unions was referred to the respective districts. National President Mitchell and the three district president were constituted a special committee to whom has been referred the grievance of the Delaware & Hudson men in the Scranton district, with respect to the laying of roads in their workings.

She Stops Here on Her Way to Danville. Ill.

Mrs. Carrie Nation, joint smasher, favored Indianapolis with her presence for fortyfive minutes last night. She changed cars here on her way from New York to Danville, Ill., where she will lecture to-night for the benefit of the Elks' Lodge at that city. Mrs. Nation is still doing her old specialty and has learned no new "stunts." She was attired in a light tan linen dress last night and seems a little heavier since

she was last here. She spent her time in the Union Station last night, and when approached by a retraveling satchel, saying she had a little souvenir she desired to present to the reporter. She drew forth a little hatchet, on which was inscribed "Carrie Nation's
